

COVER CROP MIXES: AN IMPORTANT PIECE TO THE SOIL HEALTH PUZZLE

Mixes introduce multiple species that work together, allowing both to flourish better than if planted alone.

WHY USE SOIL FIRST® MIXES?

- LINK™ cover crop inoculant is provided with Soil First® mixes that include legumes*
- Soil First® mixes are backed by a team of experts ready to help cover crops work for you
- We selected our mixes with ease of use and establishment in mind
- Soil First® mixes feature premium quality seed including the Soil First® Select Radish and Guardian™ Fall Rye

WE HAVE THE PIECES YOU NEED:

No matter what your goals are, we have a mix for you

Soil First® 101 Cover Starter

Guardian® Fall Rye + Tillage Radish®

Simple and practical, a low-risk option for both early adopters and growers looking for more flexibility.

Soil First® 102 Cover Starter+

Tillage Radish® + Guardian® Fall Rye + Crimson Clover

Building nitrogen and root mass while improving soil tilth and biomass potential.

Soil First® 125 N-Hancer

Spring Oats + Tillage Radish®

Heavy legume mix with intended for adding nitrogen.

Soil First® 140 Multi-Purpose

Hy Octane Winter Triticale + Tillage Radish® + Vivant Brassica + Forage Collards + Winter Peas

Formulated with the livestock grazer in mind, providing soil protection and biomass from fall through spring.

Soil First® 142 Classic

Crimson Clover + Tillage Radish®

Simple combination for early planting windows – double-crop, prevent plant, inter-seeding too.

Soil First® 150 Field Fit

Spring Oats + Tillage Radish® + Turnips

Straightforward and flexible mix for growers looking for very minimal spring management.

Soil First® 160 Rooting

ColdSnap™ Annual Ryegrass + Tillage Radish®

Sensible blend of radish and ryegrass developed for maximizing root mass and capturing nutrients.

Soil First® 167 Summer Grazer

Sorghum x Sudangrass + Sunn Hemp + Tillage Radish®

Summer seeded mix where the focus is quick tonnage and over – biomass production.

Soil First® 175 AccuSpread

Coated ColdSnap® Annual Ryegrass + Coated Crimson Clover + Tillage Radish®

Coated clover and coated ryegrass equate to more uniform spread patterns and consistent germination in broadcast applications.

* Soil First® LINK™ Inoculant is provided on orders of at least 500 lbs.
