

Racer 2 Turf-Type Perennial Ryegrass

- **Fast establishment**
- **Excellent traffic stress tolerance**
- **Greater percent living ground cover during stressful summer months**

- **Rapid tillering for excellent wear tolerance**
- **Excellent melting-out resistance along with good overall disease resistance**

DESCRIPTION

Racer 2 perennial ryegrass is an attractive, leafy, endophyte-enhanced ryegrass that rapidly tillers to produce a dense and compact turf in cool season as well as transition zone regions. It has demonstrated superior overall performance under various maintenance levels ranging from golf course fairways to residential lawns. Racer 2 has also demonstrated excellent traffic tolerance which makes it superior for use on sports fields, as well as parks. Its rapid recovery from stress, and high mowability have also made it superior for all applications.

Spreading Technology - Many perennial ryegrass products in our portfolio benefit from spreading technology, featuring early development of aggressively spreading rhizomes and rapid tillering. These spreading traits boast improved wear tolerance and recovery plus excellent density and persistence.

SEEDING RATES

SEEDS/LB: 270,000
NEW TURF:
6-8 LBS/1,000 SQ FT

OVERSEED RATES

3-5 LBS/1,000 SQ FT

ESTABLISHMENT

GERMINATION:

7-10 DAYS UNDER IDEAL CONDITIONS

FIRST MOWING:

14 DAYS AFTER EMERGENCE

FIRST LIMITED USE:

21 DAYS AFTER EMERGENCE
