Deer Country Field Mix

- **Spring/fall planted perennial mix offering year-round food source**
- **Performs well on light to heavy soil types in light shade to full sun**
- **Contains various high energy legumes that will strive in various geographical locations**

Deer Country Field mix was developed to provide forage for deer and attract other wildlife in the spring, summer and fall. The various species included in this mix were selected to allow for growth over various soil types and climatic conditions.
