

choice sun and shade®

lawn seed mixture

Choice Sun & Shade Mix® is designed to perform in all locations from full sun to partial shade. Perfect for landscaping demands by using improved varieties which are more heat and drought tolerant. Its versatility has made it our most popular mixture.

- Excellent for new lawns or upgrading existing turf
- Ideal for areas needing improved shade tolerance
- Fast establishment and strong winter survival

Available in 5#, 20#, 50#

ST
Spreading
Technology

Spreading Technology - Many perennial ryegrass products in our portfolio benefit from spreading technology, featuring early development of aggressively spreading rhizomes and rapid tillering. These spreading traits boast improved wear tolerance and recovery plus excellent density and persistence.

15% Chewings Fescue (1 Elite Variety)	15% Creeping Red Fescue (1 Elite Variety)	30% Turf-Type Perennial Ryegrass (3 Elite Varieties)	40% Kentucky Bluegrass (3 Elite Varieties)
--	--	---	---

ELITE VARIETY = Improved variety holding the most distinguished characteristics of that species.
