

## velvetread®

### lawn seed mixture

This elite mix is well suited for full sun or light shade, and will produce a dense, velvety lawn that is both disease resistant and tolerant to summer stress.

- Withstands heat and drought, thrives in full sun to light shade
- Disease resistant
- Handles moderate traffic well

Available in 20#, 50#

**ST**  
Spreading  
Technology

**Spreading Technology** - Many perennial ryegrass products in our portfolio benefit from spreading technology, featuring early development of aggressively spreading rhizomes and rapid tillering. These spreading traits boast improved wear tolerance and recovery plus excellent density and persistence.

10% Chewings Fescue (1 Elite Variety)	10% Creeping Red Fescue (1 Elite Variety)	40% Turf-Type Perennial Ryegrass (2 Elite Varieties)	40% Kentucky Bluegrass (2 Elite Varieties)
--	--	---	---

ELITE VARIETY = Improved variety holding the most distinguished characteristics of that species.
